

a Reseller-Club: Premier Users' Club

Session: Gillingham (Away) - 30.03.14

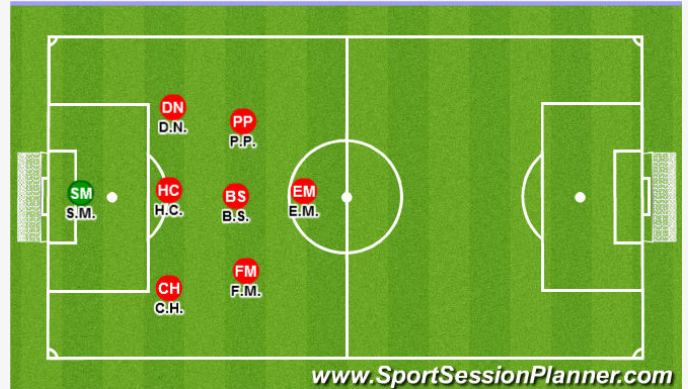

Michael Richardson, Great Dunmow, United Kingdom

Period 1

Period 1

*In possession we were very rational, and on the edge with our passing. Didn't get going into the game until 10-15 minutes into the first period

*Out of possession we were very organised and worked very hard off the ball.

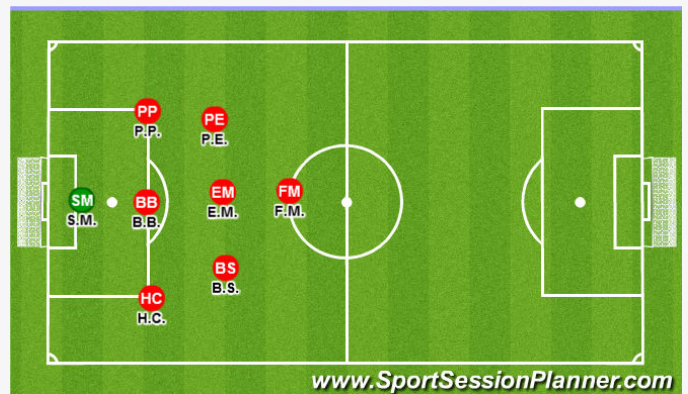

Period 2

Period 2

*In possession we were very good, keeping the ball and looking to play through the third with high tempo.

*Out of possession we were very organised and the work ethic applied was very good. Once we conceded they corrected their error themselves and went and scored shortly after.

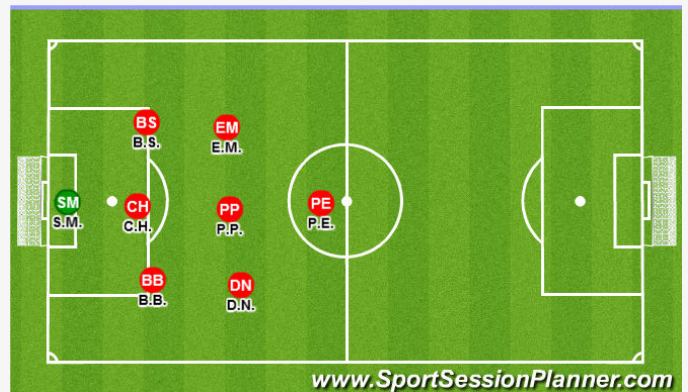

Period 3

Period 3

*In possession we were satisfactory as the hot weather was starting to effect their decision making, but all in all very good on the ball and creating/combining play.

*Out of possession we were again very organised and worked very hard off the ball pressing high and winning the ball.

Period 4

Period 4

*In possession we were satisfactory again as the hot weather was effecting their decision making, but we created opportunites to win the game and also moved the ball very well last 7-8minutes.

*Out of possession we were again very organised and worked very hard off the ball pressing high and winning the ball but defended very well once we were outnumbered trying to score the winning goal.
