## Corner Against

**ATTACK everything mentality** - no bounces and CLEAR LINES!

JB covers low crosses and goes to any short corner with the help of AH.

HA and SG on Posts - when ball cleared you need to clear lines quickly to 18 and press up and towards ball.

JB, AL and CB one step inside 6 yard box and have responsibilities to ATTACK ball in your area and CALL NAME! start level with posts and penalty spot/middle of goal.

DD and AF make attacking runs difficult and are first to charge down any breaking ball to edge of 18.

CJ look for fast ball out from defense/GK and stay HIGH at half way line (aim to keep 2 players marking you so you we have one less attacker to defend against)
